

Townsend Consultancy Ltd

Education Consultants

The Inclusive Schools Award (Specialist Schools and Academies Trust)

Townsend Consultancy Ltd provides advisory support for Specialist Schools in London and the Southeast who have signed up to achieve the Inclusive Schools Award which has been developed by the Specialist Schools and Academies Trust.

To achieve this quality mark, schools need to include these three groups of people in their work:

- Their students
- Their staff
- Their community

Three broad principles are then considered in relation to each of these three groups of people. A framework of descriptors helps schools to reflect on where they currently stand with regard to each principle and each group. This also helps schools to trigger their thinking around potential future developments.

Once schools have signed up for this award they each have access to:

- An on-line self assessment toolkit
- Support
- Meetings with other schools who are also working on the award
- Verification visit
- Certification
